# Victor Jimenez

## Profile

Accomplished Drupal Full Stack Lead Developer with over 10 years of experience designing and optimizing enterprise web applications. Specializing in Drupal 7–10, I lead complex migrations, architect decoupled solutions, and implement advanced cloud integrations. My approach combines rigorous technical oversight with hands-on development to deliver secure, scalable, and efficient digital solutions across diverse industries.

## Professional Experience

Senior Drupal / Wordpress Full Stack Lead  
Developer at Rootstack, Panama City

06/2023–Present

Leading advanced Drupal solutions with integrated GraphQL for enterprise-level projects.

- Architected and implemented **enterprise-grade Drupal solutions** for **finance, media, and technology** sectors.
- Developed **GraphQL-based APIs** to enhance **decoupled front-end applications** using **React/Angular**.
- Optimized website performance with **Varnish, Redis, and Drupal Cache**, reducing page load times by **50%**.
- Built **custom Drupal modules and themes**, ensuring **scalability, reusability, and compliance** with best practices.
- Managed **CI/CD pipelines, Dockerized environments, and cloud deployments** across **AWS, Pantheon, and Acquia**.
- Implemented **New Relic monitoring** to track **system performance, identify bottlenecks, and optimize resources**.
- Enhanced **security protocols**, integrating **OAuth, SSO, and API authentication layers** to meet enterprise compliance standards.

Senior Drupal Full Stack Lead Developer at  
Ilumno, Bogotá

01/2020–06/2023

Directing migrations and full-stack Drupal development with a focus on scalability, security, and advanced AWS integration.

- **Led migration from monolithic to microservices architecture**, enabling **scalability and high availability**.
- Developed a **decoupled Drupal platform** with **React.js**, integrating **Drupal JSON:API** for dynamic content.
- Integrated **AWS Lambda, CloudFormation, and SQS** to automate **deployment and infrastructure provisioning**.

## Technical Competencies

Drupal 7/8/9/10 .....	5/5
Headless/Decoupled Architecture .....	5/5
Symfony, Composer, Drush .....	5/5
JavaScript (ES6+) .....	5/5
RESTful API Development .....	5/5
HTML5/CSS3 .....	5/5
SQL/MariaDB .....	5/5
Git (GitLab/Bitbucket/GitHub) .....	5/5
Agile/Scrum/Kanban .....	5/5
Technical Mentorship & Code .....	5/5
Reviews	
Pantheon/Acquia Hosting, Linux .....	5/5
Server Administration	
Varnish/Redis/Drupal Cache .....	4/5
New Relic .....	4/5
React/Angular/GraphQL .....	3/5
AWS (EC2, CloudWatch, S3, RDS, .....	3/5
Lambda, CloudFormation, SQS, CloudFront)	
Jenkins/GitLab CI/GitHub Actions .....	3/5
Docker/Kubernetes/Lando .....	3/5
OAuth/SSO/API Authentication .....	3/5
Security Auditing & Compliance .....	3/5
Java/C#/ASP.NET .....	3/5

## Languages

Spanish ..... Native speaker  
English ..... Very good command

- Built **advanced caching mechanisms** with **Drupal Cache, Varnish, Redis, and CloudFront**, improving performance by **40%**.
- Managed **automated testing pipelines** (**SonarQube, Jenkins, GitLab CI**) to ensure **code quality and security compliance**.
- **Monitored server health and application performance** using **New Relic**, improving system stability and response times.
- Provided **technical mentorship**, leading **code reviews, training sessions, and best-practice workshops**.
- Collaborated with **design, QA, and product teams** in an **Agile/Scrum environment**, translating business needs into technical solutions.

## Senior Drupal Full Stack Lead Consultant ( at Legis, Bogotá

07/2021–04/2023

*Delivering strategic Drupal consulting with advanced migration, cloud integration, and agile leadership.*

- **Led large-scale Drupal migrations**, improving **system performance, security, and maintainability**.
- Standardized **Composer workflows, Drush integrations, and automated module updates**.
- Developed and optimized **CI/CD pipelines** using **GitLab CI and Jenkins**, ensuring **automated deployments**.
- Provided **cloud integration strategies** for **AWS-hosted Drupal applications**, enabling **high availability and scalability**.
- Implemented **New Relic monitoring**, optimizing **application response times and server performance**.
- **Facilitated Agile processes**, leading **sprint planning, retrospectives, and stakeholder discussions**.

## Drupal Back-End Developer at Bits Americas, Bogotá

01/2018–07/2021

*Enhancing Drupal back-end systems and driving headless architecture implementations.*

- Integrated **CyberSource payment gateways**, securing **transaction processing workflows**.
- Led the **migration to headless Drupal architectures**, integrating **React/Angular**.
- Developed **RESTful APIs** and integrated **third-party services** for **analytics and personalization** (**Segment, Braze**).
- Managed **Pantheon and Acquia hosting**, optimizing **cloud-based Drupal deployments**.
- Implemented **local development workflows** using **Lando-**, streamlining team collaboration.

## Drupal Full Stack Lead Developer at Velaio, Cali

01/2015–01/2018

*Developing and optimizing custom Drupal solutions for high-performance and scalable web applications.*

- Built **custom Drupal modules and themes**, ensuring **security and maintainability**.

- Conducted **performance audits and security assessments**, optimizing **Drupal and server configurations**.
- Managed **Pantheon and Acquia hosting**, deploying **high-traffic, enterprise-level Drupal applications**.
- Developed **custom APIs** to integrate **Drupal with third-party CRMs and marketing platforms**.

## Web developer at Skena, Cali

01/2013–01/2015

*Developing scalable web applications using a multi-technology approach.*

- Designed and maintained **enterprise web applications** using **Java, C#, ASP.NET, and Oracle**.
- Gained **hands-on experience in cloud computing and modern web architectures**, setting the foundation for **advanced back-end development**.
- Built **scalable, database-driven applications**, ensuring high performance and availability.
- Collaborated with **cross-functional teams**, delivering high-quality, maintainable code in **Agile/Scrum environments**.

## Academic Background

### BS Information System Engineer, UNAD, Colombia

01/2020–01/2024

- **Completed all coursework and requirements** for the bachelor's degree.
- **Graduation formalities finalized, and degree certification obtained.**

### Associate 's Degree Information System, Universidad del valle, Cali

01/2009–01/2012
